

Smuttynose BREWING CO.

Here at Smuttynose, we've never really cared about being trendy, but if there's one trend we can agree on - it is that we love a tasty, hazy NEIPA, so we went and brewed one that we'd all love. **Whole Lotta Haze IPA** pours a hazy straw-colored yellow, and hits you with tropical notes of pineapple and mango. The hop notes are front and center while the malt bill lends a softness to the flavor and allows the pine and citrus to pop forward and mellow out quickly, allowing you to enjoy the next sip like it's your first - all with an exceptionally soft mouthfeel as you would expect from a hazy NEIPA. It comes in at 6.5% ABV but sips like a session. So wiggle into your favorite pair of skinny jeans and go out and get some today!
